

Ushers

Ushers will need to arrive 45 minutes before the production. They will remain in the foyer to prevent early entry, open the doors at the appropriate time and hand out programs as people enter. A few moments after we begin, they will need to take a count of their assigned section and report this number to Barb. Students will be used to collect offering, but one of the ushers will accept the offering from the students at the back. These should be dads or older brothers.
